TAIA DIMITROVA
QA Engineer

SUMMARY

I'm a Certified QA Engineer. I have experience in both manual and automation testing. I can collaborate with different team members (developers, project managers, product managers, etc.) to accomplish the best software quality assurance results. I enjoy working on solutions for various problems and seeking new testing approaches. I have experience working in stressful situations, and I can keep calm and focus on actions. I'm accepting challenges and continuously learning to gain more knowledge.
